1. Notes on Installation

Safety Notes

The car sound system was manufactured according to recommended and established safety guidelines in a state of the art facility. Even so, dangers may occur if you do not observe the safety notes in the instruction manual. These instructions are intended to familiar you with important functions.

- ◆ For best results, please read the user manual carefully and completely before using the car audio system.
- ◆ Always keep the user manual accessible to all users.
- ◆ Always handover the car audio system to any third party along with these instructions.
- ◆ In addition, observe the instructions of the devices used in combination with this car audio system.

Symbols Used

Below are the symbols used in this user manual, please go through them carefully:

CAUTION:

Warns about possibilities of any injuries that might occur.

DANGER:

Warns about damages to the DVD/CD drive.

LOUD VOLUME:

Warns about high volume

- Identifies a sequencing step.
- Identifies a listing.

General Warning

To avoid any injury or damage to yourself, your car and others, please make sure to do as following. Observe the following note to protect yourself against injuries:

● **Do not modify or open the device:** Do not do any unauthorised modification to the device. In case you need any assistance, please visit the nearest service centre. The device should be open by an authorised person only.

● **Use as Directed:** this car audio system is intended for installation and operation in a vehicle with 12V (negative ground) vehicle system voltage. Observe the output limits of the device. Only an authorised specialist should perform repairs and installation, if necessary.

● **Installation Instructions:** You may only install the car audio system yourself if you are experienced in installing car audios systems, and are very familiar with the electrical system of the vehicle. For this purpose, observe the connection diagram at the end of these instructions. For self-installation make sure you have the right tools with you.

● **Use your device in such a way that you can always safely control your vehicle:** In case doubt, stop at a suitable location and operate your device while the vehicle is parked. As the driver, you must not use the applications that will distract you from traffic (depending on the scope of functions of the device, e.g. viewing videos, searching for a destination) (Navigation equipped radios and other downloaded application)

● **Follow driving recommendations during the route guidance only if you are not violating any traffic regulations:** Traffic signs and traffic regulations always have priority over driving recommendations.

● **Always listen:** at moderate volume to protect your hearing and to be able to hear warning signals (e.g. police sirens and other external alerts while driving). During mute phases (e.g. when changing the audio source), changing the volume is not advisable. Do not increase the volume during this mute phase.

Road Safety

Observe the following notes about road safety:

To avoid any injury or damage to yourself, your car and others, please make sure to do as following.

Observe the following note to protect yourself against injuries:

- Before using this unit, please read all related instructions carefully.
- Any damage to this unit caused by improper operations will void the warranty.
- Please do not watch videos or use other Apps while the vehicle is in motion. Doing so, is a
- Safety violation. To watch videos or use Apps, please ensure that the vehicle is in parked mode with handbrake activated.
- The below-listed applications while driving the vehicle may divert your attention from the traffic situation and may lead to serious accident:

Using the navigation feature like entering the destination address

- ◇ Video playback or watching any kind of video
- ◇ Usage of internet via the browser
- ◇ Use of connected phone via Phonerlink
- ◇ Use or Download of Google Play Store / Google Maps / YouTube is not permitted in the
- ◇ automotive environment
- You are advised to refrain from any activity which could possibly divert your attention while driving. The best way to use these applications is when your vehicle is parked in a safe location.
- To avoid short circuit, please do not dispose the unit into the water and please do not place or leave any kind of metal object (such as a coin or metal tools) in the unit.

● Please operate the unit as per this Manual, it is not allowed to open the unit for maintenance; In case if maintenance is required, please seek professional help.

● After the car engine is off, please do not use the car audio for a long time, otherwise, the battery could be drained.

Instructions to read this User Manual

Illustrations are used in this manual to explain operations and precautions. The illustrations used in this manual are only for reference, please take the actual unit as standard.

Marks

Mark for important preventive measures; please read carefully to prevent any injury.

Mark for a special explanation, auxiliary interpretation, imitation and references.

Mark for additional information to operate this unit. Warm notes: When there is any difference between the Manual and the actual unit, please take the actual units as standard.

Cleaning Notes

● Solvents, cleaning and scouring agents as well as dashboard spray and plastics care products may contain ingredients that will damage the surface & screen of the audio system.

● Use only a dry or slightly moistened cloth for cleaning the audio system.

Disposal Notes

● Do not dispose of your old unit/batteries in the household trash.

● Use the return and collection systems available to dispose of the old device.

2. Scope of Delivery

If an audio streaming device is connected with the car audio system via Bluetooth®, you can play back the music via the car audio system and control the playback.

- Press the [BT Music] button to change to playback audio.

Button	Function
	Previous track
	Pause playback and Resume playback
	Next track

10. Intelligent Vehicle Interconnection

This unit features wireless Apple CarPlay and Android Auto. CarPlay and Android Auto is a smarter, safer way to use your Phone while you drive. You can get directions, make calls, send and receive messages, and enjoy your favorite music. All on your car's head unit.

Tap the  icon, enter the interface, connect to the corresponding Bluetooth name, and you can connect to Wireless CarPlay or Wireless Android Auto.

When you connect to Bluetooth, please click OK.

11. CarPlay

Apple CarPlay Operation

● Use of the Apple CarPlay logo means that a vehicle user interface meets Apple performance standards. Apple is not responsible for the operation of this vehicle or its compliance with safety and regulatory standards. Please note that the use of this product with iPhone, iPod, or iPad may affect wireless performance.

● Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Apple CarPlay is a trademark of Apple Inc.

● Apple CarPlay is the smarter, safer way to use iPhone in your car. Apple CarPlay seamlessly integrates your iPhone with the car's built-in display and controls. Now you can make phone calls, access your music, send and receive messages, get directions, and more while you stay focused on the road.

Connection Steps:

Click  icon to enter the connection management page.

1. Turn on the Bluetooth and Wi-Fi function on your smartphone.
2. Search the Bluetooth name "**Lenovo D1S**" from your smartphone.
3. Tap "**Lenovo D1S**". When the **Pairing Request** pops up, verify the pairing code and tap **Pair**.
4. When the **Allow Contacts and Favorites Sync?** prompt appears, tap **Allow**.
5. On the **Connect to CarPlay** window, tap **Connect** to complete the CarPlay connection.

The unit will pop-up this page, please click OK.

The CarPlay screen will display:

Note:

1. Requires iPhone running iOS 10 or newer versions.
2. If you want to switch to Android Auto or another phone, you need to turn off Bluetooth and WiFi on your phone to disconnect the Apple CarPlay connection mode.

12. Android Auto

Android Auto enables you to use functions of your Android device convenient for driving. You can easily access route guidance, make calls, listen to music, and access convenient functions on the Android device while driving.

For details about Android Auto, visit:

<https://www.android.com/auto/> and <https://support.google.com/androidauto>.
[Compatible Android devices](#)

You can use Android Auto with Android devices of Android version 10 or newer with 5GHz Wi-Fi built-in.

NOTE: Android Auto may not be available on all devices and is not available in all countries or regions.

Connection Steps:

Click  icon to enter the connection management page.

1. Turn on the Bluetooth and Wi-Fi function on your smartphone.
2. Search the Bluetooth name “Lenovo D1S” from your smartphone.
3. Tap “Lenovo D1S”. When the Bluetooth pairing request pops up, check the passkey and tap Pair.
4. After pairing successfully, the Welcome to Android Auto page will load. Tap Continue to finish Android Auto connection.

The unit will pop-up this page, please click OK.

The Android Auto screen will display:

Note:

1. Requires phone running Android 11 or newer versions.
2. If you want to switch to CarPlay or another phone, you need to turn off Bluetooth and WiFi on your phone and disconnect from Android Auto connection mode.

Note: Upon connecting to Wireless CarPlay or Wireless Android Auto, the Bluetooth music streaming and Bluetooth phone call functionalities will be temporarily disabled. You can return to wireless CarPlay or wireless Android Auto to make calls and listen to music

13. Steering Wheel Control

Select [**SWC**] in the Settings menu to enter SWC setting menu.

- Select a function icon on the screen.
- Short / Long press a steering wheel button.
- Repeat step 1 and 2 until all the settings are done.
- Touch [Save and Exit] after all buttons are set.
- To reset the programming, touch [Reset]

14. File Manager

- Select [Files] in the main menu to enter File Manager menu.
- Select the desired folder to access your files

15. Setting

in the settings menu, you can adjust the basic settings for the different functions of the device to your requirements.

- In the main menu, press the [Settings] button. The settings menu is displayed.
- Call up the submenus with the buttons in the lower area of the settings menu.

Important Note: Please exercise caution when adjusting certain settings, as unauthorized changes may result in unit malfunction. For assistance with advanced configurations or to ensure proper operation, it is highly recommended that you consult with your authorized dealer for guidance and support.

15.1 Network

WiFi: Here, you can view available WLAN networks and select "Connect" to join a desired WiFi network.

WiFi Hotspot: You also have the option to enable your device as a WiFi hotspot, allowing other devices to connect and share your internet connection.
